Spring Quarterly Business Meeting

April 30, 2015

Red Jacket Mountain View Resort
2251 White Mountain Highway
North Conway, NH

Dick Drew, Vice President and Program Chair has prepared the Spring Quarterly Business Meeting, attempting to cater to several different aspects for our members. Some members have asked that the seminar and business meeting be separate so they're not spending an entire day and night away from the office/home. Others have asked for a Thursday meeting, and the Spring Seminar is scheduled for a Friday. While a number of members have conveyed that they can't drive at night for one reason or another, and would prefer to meet in the afternoon.

Therefore, Dick has scheduled the meeting to begin at 2:00pm. Typically, a quarterly meeting doesn't last more than an hour, so the schedule was tailored so that all members could attend the Executive Committee meeting and possibly join one of the Committee meetings. As you may be aware, we're still in need of a Publications Director, so feel free to join the Publications Committee. ☺

The Red Jacket and the North Conway area offers a variety of fun activities for the entire family. From the Kahuna Laguna indoor water park located inside the Red Jacket facility, to the ski resorts, Santa's Village, or many other activities, we're sure there is something for all to enjoy.

Darren Hardy, President-elect, working in conjunction with Dick has set up the after dinner speaker. If you didn't have the opportunity to see Ted Covill from WSP present a workshop at the Annual Meeting, you can see him here give a presentation on "Photogrammetry 101." Topics include:

- What is photogrammetry and what are its applications?
- What are the trends in the industry?
- What are the different types of cameras and digital sensors that are currently being used in the industry?
- What methods are used to achieve certain accuracies and what are the current standards used in the industry?
- What is the photogrammetric mapping work flow?
- How is the data extracted and formatted for delivery to client?
- What other photogrammetric mapping applications are being utilized?

**Spring Quarterly Business Meeting
April 30, 2015**
